CONSTRUCTION on Campus

Jeremy Warshaw

Photographed by Jeremy Warshaw

Photographed by Jeremy Warshaw

I interviewed and learned more information on what's happening around the campus. The Director of Residence, Farley Warshaw is a liaison to the Department of Education for CSDR. His responsibility is to communicate and inform the community about the construction at CSDR. The campus is 55 years old and is very old. Many buildings are outdated. Many buildings do not meet the needs of now-a-days' students. New building will allow us to use better technology and give students a better place to learn and live. The construction will replace the old buildings and modernize about 80% of current buildings for the next 12 years. Prior to this year, the first construction was the completion of the Middle School which was followed by remodeling Elementary and High School. Last spring, the construction of water pipes, chiller plant, and water tank began. These projects are expected to be finished this winter.

Farley Warshaw said, "I believe all construction projects will happen. It may take a little longer than it has been expected to complete. It will be exciting when all the construction projects are completed!" The liaison, Farley Warshaw, gives a lot of effort to coordinate many different construction projects. His expectations for everyone at CSDR are to demonstrate patience and understanding. When everyone works together the construction will be successfully completed. My opinion is that people will have a better place to learn, socialize, be involved in events, and more students can come to CSDR. They can see our campus is neat and has better facilities here.

The following construction projects are scheduled, in order:

- Multi- purpose Activity Center (MAC) - MAC is located former Rubidoux area. It should be completed by the summer of '09.
- Warehouses
- New Cottages - the first phase should be completed by the summer of '09 and the second and third phases should be completed by the summer of '11.
- New Career & Technical Education building (CTE) - CTE will begin this late spring of '09. The two phases of CTE construction will take approximately two years to complete.
- The Main Gym- the construction of gym and swimming pool will begin in fall of '09. The old gym will be razed. It will take about two years to complete.
- The core buildings will add more space for classrooms, offices, working rooms, and meeting rooms. The construction of core buildings will be located at many different parts on the campus. The date of construction has not been determined.
- The cafeteria will be expanding with 120 more seats and can served up to 320 students. The plan is still in progress.
- The other future construction building plans will include:
- Assessment Center
- Infirmary
- The relocation of Information Technology (IT) to Seely Center.
- Library
- Curriculum
- Auditorium
- Athletic Complex
- High School Activity Center

BULLIES

Emily Forsberg

We have bullies because they feel mad or they have problems. Some bullies think it feels good to bully other people. Some bullies might not have any friends or have no one to look up to. Whatever the reason, there is no such thing as a good bully.

How can we prevent bullies? We can make them be nice with us by asking them what their problems are. Be more opened-minded to others that are different than you. Keep your hands to yourself. Respect others. Follow the school's rules or follow the laws. Control your temper. If someone is bullying you make sure you report to the staff or the police. Then they bullies will be in trouble and they might go to jail.

My experience being a bully was picking on kids by calling them names. It was fun when I was younger. Once I got older, I realized how I made them feel. I don't like when people bully me; for example: back-stabbing my name or making up rumors about me, it isn't fun. I did feel hurt my feelings, and I decided not to bully anyone anymore. I hope others will think twice before they bully someone. Think about how you would feel if it happened to you. Let's make CSDR a "Bully-Free" school.

DID YOU KNOW?

`Mr. Seely, himself was Deaf.
~CSDR was established February of 1953.
~In 1983, Girls Volleyball went into second-round CIF.
~ Mal Grossinger is now the 6th superintendent at CSDR.

UPCOMING EVENTS:

~NOVEMBER~

6th: 9:55am SENIORS rings/gown
6th: 10:50am ASBG assembly
12th: Sadie Hawkins by 2012
13th: Mix It Up during lunch
17th; Guest Speaker Mr. Bravin "DPN"
21st: Honor Roll Breakfast (morning)
2oth: Cub Pride assembly

SPORTS.....

Varsity Volleyball in Arizona
Montana Murphy

The Varsity volleyball girls went to Arizona for a tournament. They left on Friday morning. It was about a seven hour road trip. The girls were talking and bonding with their coaches and their teammates. They stopped at Starbucks for a break. After that, they arrived at ASDB- Arizona School for the Deaf and Blind. The volleyball girls watched the ASDB volleyball game and then, they had a really good volleyball practice.

The next morning, CSDR girls had a game against ASDB and the matches were tied. The girls did great with serving, hitting, and more. The next game was against PDSD- Phoenix Day School for the Deaf. CSDR lost because their game was off. After that, they had two games against hearing teams. They both beat CSDR, but they were good games. At least the volleyball girls really had fun. When the girls finished the tournament, all afternoon they played with their friends. At night, they went to the mall in Tucson with some Arizona friends.

On the Sunday morning, the girls woke up, packed, then left. They arrived safely home at CSDR. They all had a lot of fun at ASDB and made some new friends.

Boron Game!!

Ryan Baldiviez

Our sports program has been showing a serious improvement this year. As for Football, we lost our first game 56-18 against Boron High School. But, hey, last year, the whole season we scored 12 points and now the first game we scored 18 points. That is more points in the first game than the whole season last year. Galvin Drake broke Ken Gonzales' passing record of 307 passing yards with his own 338 passing yards. The leading receiver in our first game was Luis Estrella with 6 catches and 117 yards.
Unfortunately, one Boron player was seriously injured while tackling one of our players. He walked out of bounds with the assistance of one of his teammates. He then passed out around 5 minutes afterwards, had 4 seizures, forcing all of his blood to go up into his brain which caused a brain clot. The brain clot caused his brain damage. He was living on life support until September 16th, Tuesday night. He passed away on September 16th, 2008. All CSDR football players will wear his initials and jersey number on their helmets for the rest of the season to honor and remember the Boron player.

TEXAS ROMPED US!

Ryan Baldiviez

Our second football game was against Texas School for the Deaf. Last year they beat us 56-0, but this year they just barely beat us, 16-0. Our defense was dominating their offense. Our young receivers made some mistakes, but they will make it up in our next game against Amino Leadership. Our next game is on Friday, September 26th. We encourage all parents, students, staff and visitors to please come and support our mighty cubs!!

CSDR stomped FREMONT! 12-2

The most exciting game of the season was the Fremont game, The Battle of California! California School for the Deaf, Fremont (CSD) arrived here and had its practice on Friday night. Saturday afternoon, each team's captains marched over to the center of the field and decided who would receive the ball first and who would kick the ball. CSDR won the coin toss and decided to receive. CSDR's first possession wasn't so great, the team couldn't even move the ball against Fremont's quick defense. The Cubs punted the ball and Fremont's first possession wasn't very good either. CSDR's amazing defense did their job, which helped our offense score the first touchdown! During halftime, the score was 6-0 and Fremont was getting frustrated. When the teams returned, Riverside scored quickly. Fremont started to try some trick plays, but they weren't tricky enough to fool our smart players. Our sweet offense decided to give the Eagles 2 points by letting them block our punt, sending the ball out of the end zone.

The stats from the game were pretty amazing for Luis Estrella; he had 6 catches for 146 yards and 2 touchdowns! Galvin Drake passed for 11-19 for 204 yards with only 1 interception! Derek Keels helped us prevent Fremont from scoring any touchdowns with 2 interceptions of his own! The final score was 12-2! CSDR won their first game in the season and it was against Fremont, our sister school! Two years straight the Eagles have been beating us and now we broke that streak and we are going to make our own winning streak. The sad thing about that match is Fremont forgot to bring the trophy that the winner is supposed to get. When we won, they apologized that they didn't have the trophy. So, we don't have it in the trophy room (CKC) yet. We will have to wait for a while before we can bring the trophy back! CSDR is so proud of its football players!! Congratulations on the first season win!

POINT SYSTEM TO DATE:

	3-l	V	F	PD	B	T
SENIOR	5	5	5	4	4	23
JUNIOR	4	4	4	3	3	18
SOPHOMORE	3	3	3	2	2	13
FRESHMAN	2	2	2	5	5	16

FREMONT beat CSDR in girls volleyball!!

Poetry Corner

Do you have some poetry that you would like to share? Please share it with us! You can give your poetry to Ellen Auman or Stacey Hausman. We are excited and waiting to read it! This month's poetry is written by Ellen Auman.

You've seen it all
Being here on earth with me
You've seen it all
Watching over me from heaven

My world isn't what I thought
I thought it would be
Its never gonna be okay
Its never gonna be okay

My road is always so dark
You're the battery to my flashlight
You're always there
To lick my troubled tears away

I never understand
How you could put up
By watching me fall all the times
And I know its hurting you too

Whenever I'm blue at nights
You would crawl into my bed
To sleep right next to me
And I know I'll be alright falling asleep

You've seen it all
Being here on earth with me
You've seen it all
Watching over me from heaven

Without you, its never gonna be okay

Ruthe-Ellen Auman

The night goes on
We're just drifting apart
There's no turning back
Because I know eventually
I'll be the one you have
The 'hi how are you?' conversations
Instead of making memories
I will be the one
Who watches you walk away
Until you disappear into the dark
And starting to face my own path
Like we're in this all alone
It's like its meant to be all along.

Ruthe-Ellen Auman

CSDR GRAND HOMECOMING KING & QUEEN

Queen Megan Murphy and King Miquel Pliego

Homecoming Spirit Week

Maj Lesti

Every homecoming event in every school there is always Spirit Week. What is Spirit Week, you ask? Most schools will have a week when students can dress up so weird and hilarious to show their support to volleyball and football players. Monday there was no school; Tuesday students brought their stuffed animals, Wednesday was Twin day, and they paired up into partners and dressed the same! Thursday was class colors: freshmen wore white, sophomores wore grey, juniors wore red, and the seniors wore black. On Friday was Plaid day; everyone wore plaid shorts, shirts, hats, shoes, and socks.

The Homecoming dance was the biggest part of Homecoming besides the games themselves. The dance was on Thursday, October 16th. The senior class hosted the dance and which provided a Mexican buffet. Everyone was encouraged to dress "retro". Many people had wild clothes and wild hair. It was a great way to support our school and have fun.

"A NIGHT OF RETRO" DANCE.....

Special THANKS to Wallace Soriano for this year WSBC logo!

Soriano's drawing before finalizing and digitizing into computer.

New Student
Ron Gluska

Raymart Tinio

On Monday, September 8th, 2008, I interviewed Ron Gluska. Ron is new to this school. He is a junior and he's sixteen years old. He doesn't know how to sign very well. He sleeps in Palomar III dorm. I know that many people talk about Ron. So, that's why I interviewed him to find out more information about him.

I asked Ron what he thinks about this school, he said that it was hard for him because he doesn't understand some of his teachers, students, and the staff, because some of them just use ASL only and not use their voice. So, Ron said that he would like people to try their best to talk with voice and sign at the same time, so he could understand them better. Like what I did with him, I used my voice and signed at the same time. It'll help him to learn ASL better.

Maybe some of you heard that Ron said that he doesn't like Deaf people, so now he already apologized to us for what he said. Ron is hard of hearing. I told him that hard of hearing can mean like Deaf. Deaf means that deaf can't hear anything, but hard of hearing, can hear a little bit. Both mean the same, because both mean hearing loss.

Also, he told me that he may move to Palm Desert High School in October, because he wants to see his old friends again. He has a few friends here at this school. It seems like we all should become his friend, so maybe it would make Ron feel comfortable to stay here instead. We should be friendlier to him, so maybe he would try to be friendly to us, too.

Finally, Ron wanted to tell something about himself. He lived in Los Angeles with his father and his brother. His brother's name is Matthew, he is 18 years old. His favorite color is black, just like my favorite color! His parents are from Israel. But, he was born in California, USA. On September 14th, he went to 6 Flags, Magic Mountain with Matthew, his friends, his friends' father, and his friends' sister. That's all he would like to say about himself. So, when you see Ron around here or somewhere else, please try to talk to him in friendly way that would make all of us become happier.

New High School Staff

Maj Lesti

More and more people are joining our school. We have four new staff and two transfers in the high school department! The transfers are Don Burnes the former science teacher to T.P.P, and Timothy Hile who used to be lead teacher in Middle School and now is our High School principal. Other new staff includes Nina Poblete who is our T.P.P coordinator, Wes Rinella our Graphic Design teacher, Ian Goldstein our F.E.A.S.T /chef teacher, Norman Weiss, who works for the students who are staying for their fifth year, and Judi Morgan our new Language Arts teacher! I would like to say thanks to those who work hard for this school and help the students grow! When you see those teachers please give them warm welcome and congratulate them for joining the CSDR family!

Latest School Trends

Kristly Amador

What should the girls wear to school? Makeup is the trend! Don't go to the school without it. Everybody loves attention. Be attractive. Make time for it. Make up is every girl's best friend and a perfect way to increase your self-esteem.

As for the boys, retro is the style! Colors everywhere! Blue, red, green, purple, yellow & etc from the top to the bottom. Skinny pants are popular nowadays. It's not just for girls only. Guys can even wear it.

Tips- BE CREATIVE. Don't be afraid of showing your own unique style!
